Call for Special Interest Sessions

Proposals for a Special Interest Session on a particular topic must be received by January 16, 2023.

All accepted and invited paper authors and special session moderators and speakers are required to register and pay accordingly for the World Congress.

Contact your regional representative with the following information:

- **Topic area**
- **Proposed session title**
- **Session organizer's name and contact information**
- **Session description – 400 words maximum**
- **Names of potential session moderator and speakers, including job titles, organizations and country**
- **Only a limited number of Special Sessions will be offered at the World Congress. Be notified in mid-March if your proposal is selected.**

Official Website Design Scheme

ITS WORLD CONGRESS 2023

ITS World Congress 2023, taking place 16th - 20th OCT. 2023 [Conference: OCT. 16 - 20 | Exhibit Hall: OCT. 16 - 20] in Suzhou China, exploring "Transformation by Transportation", is the global event that brings together world leaders, practitioners, policy makers, researchers, and private industry to advance and unite the intelligent transportation systems (ITS) industry.

DISCOVER

See real-time technology demonstrations to experience the newest in ITS technologies. This is the only venue where you can see the latest ITS innovations and how proven technologies continue to evolve and scale into solutions that can be easily integrated into your business.

[Learn more](#)

CONNECT

Network and make meaningful connections with ITS leaders and practitioners to grow your program, understand how to be nimbler and more adaptive in an ever-increasing technology-driven world, and find best practices and solutions to meet your transportation needs.

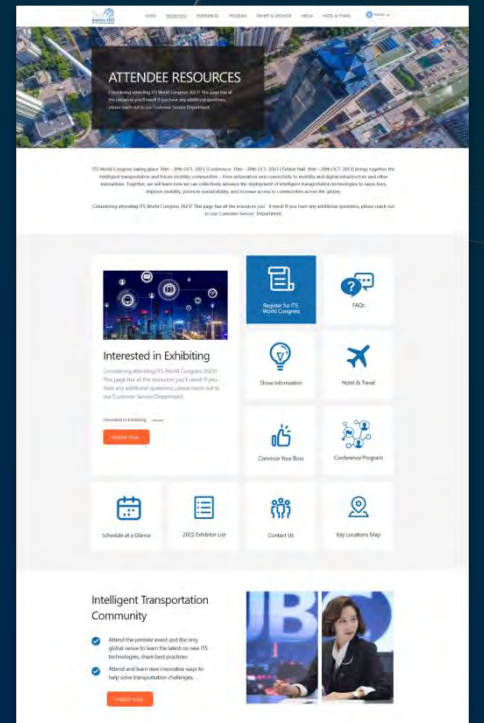

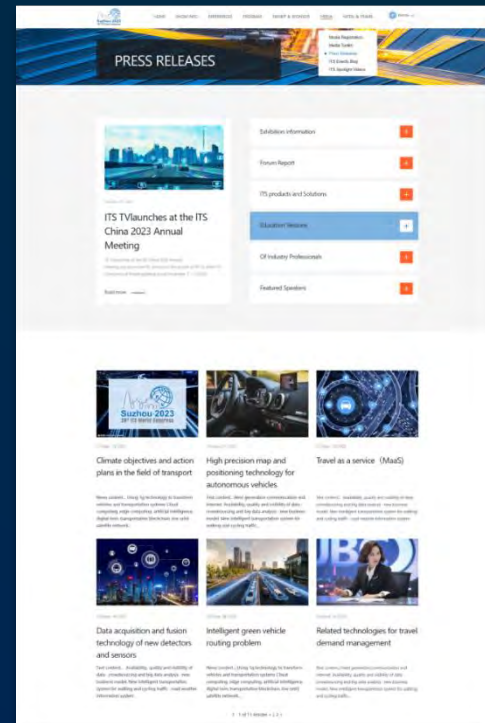

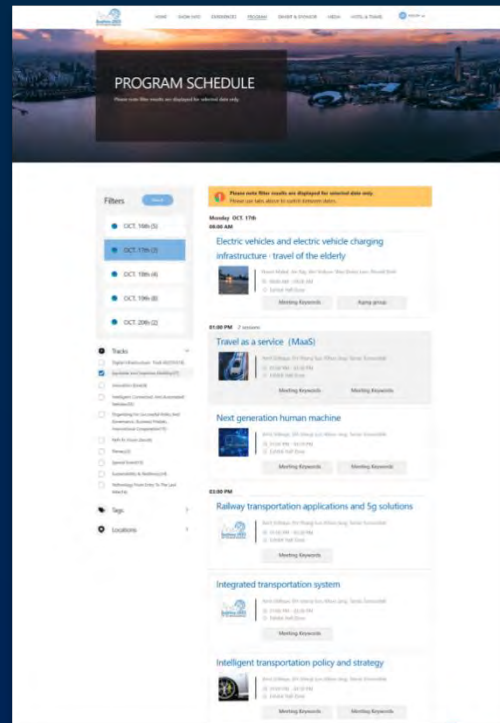

[Learn more](#)

LEARN

Exploring "Driving Towards Intelligent Society—Quality Life" this year's Conference Program presents an opportunity to reimagine mobility and transform outcomes for generations and more resilient systems, increased access and equity, and safer, smarter streets for all.

Proposed Plan of Technical Tours

Route 1

Autopilot Expedition Route

Via: North High-Speed Rail Station, Taihu Eco Island

Route features: Showcasing the level of demonstration applications of autonomous driving technology in scenic spots, hubs, and city roads, including scenarios of unmanned minibuses, unmanned taxis, unmanned sweepers, unmanned vending, and unmanned parking

Route 2

Intelligent Traffic Management Study Route

Via: Transport Operation Command Centre (TOCC), Bus Dispatch Centre

Route features: showcasing the level of application of big data, artificial intelligence and other technologies in urban traffic management

Route 3

Smart Shipping and Smart Port Study

Via: Taicang Port Phase IV Terminal, Baiyang Bay Logistics Centre, Suzhou section of the Beijing-Hangzhou Canal

Route features: showcasing intelligent ports, intelligent freight hubs and intelligent shipping

Proposed Plan of Technical Tours

Route 4

Smart Highway Expedition Route

Via: Shanghai-Nanjing Expressway Command Centre, Sudai Expressway Qidu Control Centre

Route features: Show the level of application of BIM, GIS, intelligent perception, automatic driving and other technologies on the smart highway

Route 5

Smart Travel Experience around the Congress

Via: Suzhou International Expo Centre and surrounding areas such as Jinji Lake Scenic Area

Route features: MaaS, autopilot and other travel services for conference attendees and the surrounding public

Routes are being optimized and updated

GALA Dinner Multi-functional Hall (Suzhou Expo)

Good view of the night skyline

Up to 2520 square meters

Accommodate more than 1000 people at a time

Policies & Discussions

Uncertainties

- **COVID-19 situation and health and safety regulations**
- **International traveling policies**
- **Other policies like customs and visas**

Opportunities

- **Innovative attempt for searching the new way of World Congress by applying cutting-edge technologies.**
- **Extensive outreach of new communication channels may draw much more and wider attention to ITS.**

Outlook and Forecast

Format of the Suzhou World Congress

- On-site and Online combined.
- On-site exhibition have been preliminarily determined and will be announced and open for booking after the Los Angeles ITSWC.

Optimistic about the overall trend of the pandemic 2023.

Open Discussion and Feedback

**Program theme,
paper topic and key
dates**

**Exhibition pattern and
schedule**

**How to make a perfect
combination of online
and on-site Congress**

Welcome to Suzhou !

THANKS
